1. Spot the dangers

Take care, swimming pools can be hazardous. Water presents a risk of drowning, and injuries can occur from hitting the hard surrounds, or from misuse of the equipment. Every pool is different, so always make sure you know how deep the water is, and check for other hazards such as steep slopes into deeper water, etc.

2. Always swim within your ability

Never swim after a heavy meal or after alcohol. Avoid holding your breath and swimming long distances under water. Be especially careful if you have a medical condition such as epilepsy, asthma, diabetes or heart problems. Follow advice provided for the safety of yourself and others. Avoid unruly behaviour which can be dangerous: for instance, running on the side of the pool, ducking, acrobatics in the water, or shouting or screaming (which could distract attention from an emergency).

Remember that a moment of foolish behaviour can cost a life.

3. Look out for yourself and other swimmers

It is safer to swim with a companion. Keep an eye open for others, particularly younger children and non-swimmers.

4. Learn how to help

If you see somebody in difficulty, call for help immediately. In an emergency, keep calm and do exactly as you are told.

Please note that membership of the Club and the use of the pools is dependent on the acknowledgement and the strict adherence to this user code and all Club safety rules
